

Master Gardeners are trained volunteers with a commitment to *Helping Others Learn to Grow*. The Speakers Bureau offers Master Gardeners to present to your group or organization in person or online. Master Gardeners present on many gardening topics with an emphasis on sustainable practices and science-based information.

**Virtual presentations are now being offered!**

To request a Master Gardener to speak at your next event, fill out the form found on our website under the "Community/Education" tab.

**[mastergardenerscc.org](http://mastergardenerscc.org)**

The Master Gardener Association of Cape Cod has a nominal fee of \$75 for speakers bureau engagements.

### ASK A MASTER GARDENER

An integral part of the Master Gardener program is community outreach. You can find us throughout the year at various events, such as farmer's markets, where we share our horticultural knowledge.

Keep an eye out for the Master Gardener's information table, where we answer walk-up gardening questions and have handouts available on various topics. Please stop by to chat! Check our website to see where we'll be next.
