BE THE
RESCUE

BECOME A FOOD RESCUER

JOIN US IN THE FIGHT TO END HUNGER AND FOOD WASTE.

Barnstable County Government's Cape Cod Cooperative Extension and Food Rescue US are teaming up to reduce both hunger and food waste on Cape Cod by establishing a group of dedicated volunteer food rescuers that deliver food to food insecure individuals and families in Barnstable County.

WHAT DO FOOD RESCUERS DO?

By becoming a volunteer, you can:

- Pick-up excess food from local food donors, including grocery stores, restaurants, farmers' markets, and other food providers.
 - Deliver the excess food to local social service agencies providing for food insecure individuals and families within your community.
 - Use your own vehicle and select a time that's convenient for you to pick-up and drop-off the excess food. The process is quick and simple and is incredibly rewarding.
-

Interested in becoming a volunteer food rescuer? Please contact:
